

Tuesday

Date:8/20/2019

Session	Objective	Activity	Homework
Morning Meeting 8:50-9:00 10mins	Students get familiar with each other and build connection with teachers in the class. Chinese is not only the learning but also includes fun!	Greeting activity: Ball tossing game to greet to each other. If still have time, use sentence frame filing out activity.	Morning message: We will learn about water on the earth.
Big 3 Rotations 9:00-10:35 95mins			
Science 10:40-11:15 35mins	*Know how many percentages of the water of the earth. *Know the name of the different types of water.	1. Water and money, which one is more important? Small debate! 3 mins. Group choose a topic and debate with other groups. 2. guess the water percentage of the earth. Toss the small earth toy to see the chance. Tell students 70% surface of the earth is water. 3. discuss where you can find waters. 4. Summarize where we can find water and there are actually 3 types of water: Slain, fresh, and ice water. And the percentage for these water are 97%, 2% and 1%.	5. Write about the percentage of the water and different names of water types on the earth.
Lunch 11:15-11:55 40mins			
Science/Literacy 11:55-12:50 55mins	*Reinforce what students have known about the water on the earth and give chance to everyone to talk about these concepts in Chinese	1. Continue Science class if didn't finish in the morning. 2. If finish science class, practice with Pinyin.	

	*Practice pinyin with the students to reinforce.		
Switch 12:50-12:55			
Science 12:55-2:10 75mins	<p>*Know how many percentages of the water of the earth.</p> <p>*Know the name of the different types of water.</p>	<ol style="list-style-type: none"> 1.
